PERFORATED METAL

# Optimal sound protection – inside and outside

There's sound insulation and there's SCHÄFER sound insulation! By choosing SCHÄFER perforated sheets, with their great variety of designs provided by our machining service, you have the right, proved and tested solution. Whether as sound-absorbing ceiling elements, protective sheet elements or for railway and motorway routes – SCHÄFER manufactures perforated sheets, either flat or already shaped to your specifications, which are optimised for technical applications. With SCHÄFER you can rely on decades of experience.

## Your Benefits

- High sound insulation
- Balanced interior acoustics
- Elegant design
- Individual solutions
- Available at short notice
